To whom it may concern:

My reason for my objection mainly is my disappointment in the change of monetary compensation. The amount at present is not at all covering out of pocket payment. Would you please reconsider this latest decision and give amount originally proposed or more than currently offered.

I have been a widow for nearly eleven (11) years and on a fixed income. I really was depending on this reimbursement. I am hopeful you will reconsider your current decision. This objection relates to the BMS AND Class 1 Settlement.

Sincerely,
Marie J. Angello
